Tall and short women

Size charts for tall or short women have each of the following vertical measurements adjusted as shown in the size chart.

	Short women (cm) (152–160cm (5ft–5 ft 3 in))	Tall women (cm) (172–180cm (5ft 7½ in–5 ft 10½ in))
nape to waist	–2	+2
scye depth	–0.8	+0.8
sleeve length	–2.5	+2.5
waist to knee	–3	+3
waist to floor	–5	+5
body rise	–1	+1

WHY WE CUSTOMIZE LINGERIE?

Do you know why we are so insisting to do custom-made lingerie? Because everyone has very different body shape. Have you ever thought that you might wear the wrong size of bra everyday? Many lingerie brands use their own methods to get a standard size and make it suitable for majority of women. However, even two girls' sizes are both 32C, their back width might be a lot different. You may have heard from some lingerie brands teach you how to calculate your cup size. Ex: 37"bust – 34"under bust = 3" then your bra size will be 34C. But Gh not only measures left&right breasts for pattern use but also customize the bra underwire. It brings better precision to pattern design and fitting. This is also why each case takes us at least 30 days from fabric selection, design sketches, pattern making to a complete lingerie.
